TEL JOHN JOHNSON 0427791637

**Featuring:**

**75 Border Leicester 75**

**18 Maternal Composites 18**

**Darryl Napper SAL 0429640234**

**MN2 Vaccinated**

**Brucellosis Accredited 3555**

Hi All

Welcome to our sale at the Naracoorte showgrounds.

Johnos has had a very successful year in the showing at Royal Adelaide show taking out ribbons in every event that it was in in the rams. Scanning info on the rams indicated that they were the heaviest, largest eye muscle and most fertile rams in Adelaide. They also won the best head class and the objective measurement class for the first time. Not only in the show ring but also Johnos still has the genetics to produce the highest quality as Johnos 83/11, BLX index of over 143 and is the leader in fertility but also the eating qualities in the genomics trials in Australia. Not only is Johnos the leader in breeding genetics it is also the industry leader in the eating qualities which we all enjoy in the lamb industry. There is some of the 83-progeny included in this sale today.

Cherie and George are selling rams from the Cooina Border Leicester stud. We wish them well on the future venture in the Border Leicester breeding.

We have catalogued 75 Border Leicester Rams. You will notice there are still many \$Superborder\$. We are still very committed to \$Superborder\$ and Cherie has taken up a role on the committee to make sure that we are up to date with all that is happening in the industry.

We will still be available at the Naracoorte 1<sup>st</sup> cross sales to put up the \$Superborder\$ info and the "bred by Johnos" stickers on the pen placards to support you as much as we can to get the best return possible available on the day. If you don't sell at these sales and require the \$Superborder\$ cards please don't hesitate to speak to us. If you sell on Auctions plus we are working to get the \$Superborder\$ logo put alongside the sale lot.

We have also included 18 composite rams as well. You will notice that some of the rams are out of the highest index Border Leicester ram which were mated to the poll Dorset ewes and these rams have great muscle and outlook and will either do the maternal or terminal side of any farming operation. We also tried the poll Dorset ram over the borderleicester ewes. We picked the highest muscle Dorset ram and put over the Border ewes. These rams are about 2 months younger but, as you will see, they will also do the maternal or terminal side of any sheep breeding operation. We don't have any lambplan figures on these, but, as you will see, they are very impressive.

We have not included any Hampshire Down or Southdown Rams in this year's sale, but if you require any, please speak to us and we will do our best to help you out.

After breeding Hampshire Downs for 15 years it is with great sadness that It will be our last year of selling the Hampshire Down sheep.

We wish you all the best for the selling season and hope that it will be a time when you can look back and be happy with what you have achieved in the last 12 months.

All the Best from

Jeff & Raelene Johnson and Family

Cherie and George Pagan

and Neil and Mel Johnson and Family
